Transferable units are those that apply to a bachelor's degree (baccalaureate level) and are not remedial, vocational, professional or technical in nature. Go to [www.assist.org](http://www.assist.org), CSU Transferable Courses, for information about California Community College courses.

**Grade Point Average (GPA) = Total grade points divided by total units attempted.**  
[Save Now!](#)

How to determine total grade points:  
Calculate the grade point average (GPA) by first assigning grade points for each transferable unit:

Grade	Points per Unit	Grade	Points per Unit
A	4.0	C	2.0
A-	3.7	C-	1.7
B+	3.3	D+	1.3
B	3.0	D	1.0
B-	2.7	D-	0.7
C+	2.3	F	0.0

To calculate your grade points, multiply the number of course units by the number of grade points for the grade you earned. Use the chart above and your transcript(s).

How to determine units attempted:  
Calculate all transferable units attempted at all regionally accredited colleges and/or universities attended.

How to determine Grade Point Average (GPA):  
Divide the total grade points by the total units attempted to get the grade point average (GPA).

Tip: If you have attempted courses from both quarter and semester schools, first convert quarter units to semester units by multiplying quarter units and grade points by 2/3, then proceed with calculating all semester units and grade points using the instructions above.

Transferable units are those that apply to the bachelor's degree (baccalaureate level) and are not remedial, vocational, professional, or technical in nature.
